Kusary, Azerbaijan

Achievements/Tasks

- Troubleshoot various incidents related to hardware, networks and software faults.
- Arranged computers, routers and printer to achieve proper workstation.
- Scheduled upgrades and regular maintenance to maintain smooth workflow.
- Develop and maintain local networks in ways that optimize performance.

SKILLS

Expert in HTML/CSS/SASS

JavaScript

React.js

Git

npm

Bootstrap

Knowledge of UX/UI design principles.

Familiarity with RESTful APIs

Strong problem solving and debugging skills.

PERSONAL PROJECTS

EdVentureAI

- Leveraging the power of Python for backend development, this web application utilizes sophisticated algorithms to assist students in identifying their ideal career paths.
- Built with React.js, the front-end delivers a seamless and interactive user experience, perfectly complementing the intelligent Python-driven backend.
- The application's design is meticulously crafted using HTML and CSS, ensuring a responsive and visually appealing interface tailored for student engagement.
- Integrating various APIs for comprehensive data analysis and utilizing Node.js for scalable server-side operations, the application provides reliable and efficient career guidance based on AI-driven insights.

Portfolio website

- I have implemented advanced front-end features using React.js, leveraging its component-based architecture to create efficient and interactive user interfaces.
- My projects consistently demonstrate a strong command of HTML and CSS, ensuring structured, accessible, and visually appealing web layouts.
- With a focus on responsive design, I utilize CSS and React.js to ensure that my websites are visually compelling and function seamlessly across all devices.
